Curriculum Vitae

Objective:

To seek a job that is challenging, creative and energetic in a job setting that is world class in nature, competitive, cooperative and known for its reputation among others and to give my best to the company and be a crucial part in its growth.

Desire:

- To grow to be the corner stone of the company I work for, to be an ideal employee, ideal colleague & ideal leader of the group.
- To keep inventing things, ideas, policies and plans for the betterment of the company, to share good relation with everyone, to redefine the work process whenever needed only to excel.

Project Highlights:

➤ **Student Registration Form**

The form which is built with the help of Servlet and JSP and is connected to the Database. The connection with the database is established through Java Database Connectivity. Student Registration Form is also validates the student id, phone number and format of email. User can also search for registered students by their student id or by the name.

➤ **Browser to find places nearby**

Here the user can search for any places nearby , it can be hotel, temple, school, mall etc. After the search , they can also know about the ratings and the reviews about the place.
